

Saint Pierre and Miquelon solar homes battery

The key is to fully charge the batteries during the day in order to maintain high production in the evening. During the day, the EMS will look for a compromise between respecting gauges and recharging to supply electricity to the grid in the evening. The solar forecasts provide crucial information for finding the right balance. Forecasting ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).
