What is scale microgrids doing with Truist bank?

Your Privacy Choices Ad Terms Feedback NEW YORK, December 12, 2024--Scale Microgrids ("Scale") has closed a major tax equity transaction with Truist Bank to support the construction of new distributed energy assets across the U.S. Under this partnership, Truist will provide a tax equity investment of up to \$150 million.

Can a minigrid metering project be installed in Ghana?

Elsewhere on pv magazine... Ghana's Ministry of Energy is now welcoming applications for the design, supply and installation of 35 minigrid and solar PV net-metering projects to be located at a range of island and lakeside communities in the west African country.

Does Truist support scale microgrids?

"Truist is proud to support Scale Microgrids in developing a portfolio of renewable energy projects that will provide clean power to end users such as universities, hospitals, businesses, and communities across the country," said Chris Nygren, Head of Tax Equity for Truist Bank.

How are solar energy solutions transforming Ghana's economy?

About 100,000 inhabitants in nine regions of Ghana, were introduced to solar energy solutions, including 18,585 remote school students. Energy solutions were also brought into rural health centers, with the impact of reduced use of carbon based fuels such as kerosene or firewood, and paving the way for a less carbon-intensive economy.

Who financed the Ghana mini grid & solar PV net metering project?

The Ghana Mini Grid and Solar PV Net Metering Project (SREP) is financed by the AfDB, the World Bank's Climate Investment Fund (CIF), and the Swiss government's State Secretariat for Economic Affairs. The grant funding is designed to "apply part of the proceeds towards payments under the contracts," the tender stated.

How much does it cost to build a minigrid?

There will be six minigrids for 12 communities in Bono East, requiring \$120,000 (EUR113,900) as the bid security, as well as seven minigrids for seven communities in central and east Gonja in the Savannah Region, for \$75,000. There will also be seven minigrids for nine communities in Krachi East, West and Nchumuru districts in Oti, at \$85,000.
