Since 2020- Targeting solar electricians on and off island; Be it in Dominica or on other Caribbean islands. Or for 'hands On'; customers willing to save by 'Doing it themselves'. We deliver ...

Since 2020- Targeting solar electricians on and off island; Be it in Dominica or on other Caribbean islands. Or for 'hands On'; customers willing to save by 'Doing it themselves'. We deliver a pre-designed, pre-mounted and wired, pre-tested solar kit. Save on installation costs!

SGS offers assessment, verification, testing and support services throughout the entire life of solar energy projects, from the conceptual phase to design, manufacturing of solar panels, transportation, installation and set-up of a solar ...

As a trusted solar panel company in Dominica, we manufacture and supply premium-grade solar panels that harness the power of the sun to generate clean and sustainable energy. Our panels are designed to withstand diverse weather conditions and deliver optimal performance, ensuring maximum energy generation for your specific requirements.

SGS offers assessment, verification, testing and support services throughout the entire life of solar energy projects, from the conceptual phase to design, manufacturing of solar panels, transportation, installation and set-up of a solar power installation.

Investing in a home photovoltaic system off-grid with Lifepo4 batteries is profitable and pays off quickly. In the Dominican Republic there is a lot of sun all year round, so you can produce a lot of energy from your panels. You can also benefit from subsidies or tax breaks for purchasing and installing the system.

Solar & Batteries Projects in the Dominican Republic. In the Dominican Republic, several cities and regions stand out as prime locations for solar panel and battery installations due to their high energy demands, abundant sunshine, and growing awareness of renewable energy.

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ tablet and a few bulbs, to larger solar systems tailored to power entire homes or businesses such as resorts.
