Will Singapore import clean electricity by 2035?

Singapore has already signed agreements with Indonesia, Cambodia, and Vietnam to import some 5.6 gigawatts (GW) of clean electricity by 2035 - which is close to half of the 13 GW of Singapore's generation capacity in 2023.

Will Singapore's Power Grid be able to connect across national boundaries?

Janice Bong, a managing director at Singapore utility Keppel Energy, another company that has been awarded a conditional licence to import power, said permitting processes need to be aligned to allow Singapore's grid to connect across national boundaries via subsea cables.

Should Singapore have an ASEAN Power Grid?

"People have always recognised that there are benefits to having an ASEAN power grid. But the impetus to make this a reality today is much stronger compared with what it was 20 or 30 years ago," said Mr Puah in his first interview with the media since taking the helm of Singapore's energy regulator in July 2024.

Will Singapore continue to rely on natural gas?
