

Sint Maarten 500v battery

- Load power without a battery: Can power AC loads (and itself) directly from the solar input, without a battery bank. This increases the efficiency of the energy generated by the solar array by reducing power losses.
- Easy installation: Exceptional solar input of up to 500V DC allows the panels to be connected in one single chain.

We currently have six stores. Two in Sint Maarten, one in French St Martin, one in St Lucia and two in Grenada. All are on the water and are easily reached by dinghy. All are easily accessible by road with adequate parking.
