

Solar Street Light Exhibition Stand

What is solar street lighting?

Solar street lighting is an excellent solution for temporary or essential works lighting. Solar lights, using redeployable solutions such as the below concrete blocks, can be installed quickly without the need for a mains connection, providing immediate illumination. This flexibility is beneficial for essential work or emergency repairs.

Where can I use solar street lighting in the UK?

With the largest selection of solar street, car park and general area lighting systems in the UK, we have lighting for all applications. Typical applications include streets, roadways, car parks, general outdoor areas, playgrounds, storage yards, footpaths, multi use games areas (MUGA), BMX pump tracks, horse riding arenas and such like.

Is solar street lighting a sustainable choice?

With solar lighting, you're in control of your lighting needs. Once installed, solar street lighting operates at virtually no cost. With no ongoing electricity expenses, solar street lighting is not just a sustainable choice, but a financially savvy one. This is especially true as global energy prices continue to rise.

How do I choose the right solar street lighting?

Choosing the right solar street lighting can dramatically reduce installation costs but requires careful consideration. Here's what to look for: Solar Panel: Check panel power (Watts), size (M²), and efficiency (%). Higher values generally mean better performance. Solar Irradiance: Know the solar power available in your location.

How are our exhibition stands made?

Call us on 01733 570222 Our exhibition stands are manufactured using renewable energy from our own solar panels. Graphic media made from recycled plastic bottles as well as PVC free, biodegradable and recyclable media choices. Components are built to a high standard allowing for lots of reuse - the truest form of recycling.

What is a Belle Epoque lantern for solar street lights?

Inspired by "traditional" lighting, the BELLE EPOQUE lantern for solar street lights aims to echo the past by keeping the shape of the lanterns of yesteryear. By turning this lantern upside down, we have brought it up to date, giving it a robust and solid appearance while keeping a refined and distinctive shape.

This commercial grade, solar powered street light system is perfect for lighting up streets, car parks and public area. Supplied with a powerful 10W (1,800 Lumen), 15W (2,700 Lumen) or 20W (3,700 Lumen) LED luminaire.
