

Solar and electric Guam

Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam use fossil energy?

3 Guam has no fossil energy resources and meets nearly all of its energy needs--including the fuel for generating most of its electricity--with imported petroleum products. 4,5 However, Guam is increasing its use of renewable energy resources for electricity generation. 6,7

Does Guam have electricity?

About four-fifths of Guam's electricity generating capacity runs on fossil fuels and the rest is fueled by renewables. The Guam Power Authority (GPA), a public corporation overseen by the elected Consolidated Commission on Utilities (CCU) and regulated by the Guam Public Utilities Commission (PUC), provides all of Guam's electricity.

How much energy does Guam use?

Conclusion Total energy consumption in Guam has been increasing over the past 12 years. In 2021, the island consumed 241 million gallons of imported fossil fuels. Of the total energy consumed on the island, less than 4% is supplied by carbon-free renewable energy.

How much does electricity cost in Guam?

Electricity costs in Guam are almost double the U.S. national average, although somewhat lower than other islands in the Pacific. The average retail electricity cost in 2022 was nearly \$0.35/kWh, inclusive of a fuel surcharge that can be adjusted every six months based on the market fuel price.

Will Guam become 100 percent renewable by 2045?

Dirt was turned on the Ukudu power plant project and a ribbon was cut for the official launch of the Mangilao solar farm during back-to-back events, which officials said marked "a tremendous step" toward Guam's goal to reduce reliance on fossil fuel and become 100 percent powered by renewable energy by 2045.

NRG Energy Inc., through its wholly owned subsidiary NRG Solar LLC, and The Boeing Company started construction on Dandan, Guam's first solar power plant. NRG will bring its experience and ingenuity as a solar innovator to this project, proven by the company's successful development of solutions ranging from the world's largest solar thermal and ...
