

Solar group of companies Guinea

How much solar power does Guinea have?

Guinea had an installed PV capacity of just 13 MW at the end of 2020. Infracore Africa, a unit of U.K.-based Private Infrastructure Development Group (PIDG), and Solveo Energie, a unit of French renewable energy developer Solveo, have secured a 25-year power purchase agreement (PPA) for a large-scale solar project under development in Guinea.

What is the 88 MW solar project in Guinea?

The project is likely the first phase of an 88 MW PV project announced by the French government in April 2017. The French authorities said at the time that the project was expected to be built in two 44 MW phases and to be developed by Solveo Energy. Guinea has had very limited development of solar energy to date.

Who is developing a solar PV project in Africa?

The project is being developed by Infracore Africa with the support of Aldwych Africa Developments Ltd, in partnership with experienced French solar PV developer, Solveo Energie S.A.S, a subsidiary of Solveo Developpement. The companies bring complementary skills and knowledge to the project.

Why do we need solar power in Guinea?

to exploit Guinea's solar power potential in order to diversify the country's energy mix and increase the availability and reliability of power.

What is the khoumaguéli solar IPP project?

The Khoumaguéli Solar IPP project will sell power to local utility Electricité de Guinée (EDG). Guinea had an installed PV capacity of just 13 MW at the end of 2020.

What is khoumaguéli solar?

"The 40 MW Khoumaguéli Solar project will be the West African country's first grid-connected solar photovoltaic plant and is designed to complement power generation at the nearby 75 MW Garafiri hydroelectric plant." The facility will sell power to local utility Electricité de Guinée (EDG) at an undisclosed price.
