SolarLogix is a family owned and operated solar electric and heat pump installation company founded in 2015. We offer both solar electric and heat pump solutions for residential and commercial customers. New building location at 18 Searsport Ave. in Belfast coming March 2024!

The Northern Lights, or aurora borealis, are lights in the sky caused by activity that originates on the surface of the sun. The science behind this process is fascinating: the sun is actually a huge star that acts as a rotating mass. At its heart are gases, primarily hydrogen. In addition, at the sun's core, some hydrogen is turned into helium through the process of nuclear ...

Solar Logix aims to substantially increase the production of clean solar generated power within our communities. We will be making it easy for our clients to become solar power generators, by professionally managing all of the logistics for them in a safe and efficient manner. Through our endeavors we will help build a more sustainable planet ...

Whether you're interested in harnessing the power of solar energy, optimizing HVAC systems, installing electric vehicle chargers, or exploring energy-efficient water heaters, our team is well-versed in Efficiency Maine rebates, federal tax credits, REAP grants, and other incentives to save you thousands of dollars.
