

Solar panel with storage battery Botswana

Can a solar refrigerator be used in Botswana?

PV solar refrigeration The use of PV solar refrigeration in Botswana at present is very limited. The use of solar refrigerators to preserve vaccines and other life saving drugs was introduced in a few clinics but it was not successful due to frequent breakdowns of equipment.

Which solar still is best suited for Botswana?

After years of research and development activities, the RIIC findings concluded that the Mexican and brick solar stills are the best suited for application in Botswana. The Mexican still consists of a moulded fibreglass basin of 1.6 m² base area to hold saline water and has gutters on two sides to collect the distillate.

Why do we need a borehole in Botswana?

This borehole, which extends to a depth of 75 meters, plays a pivotal role in supplying water to a community situated about 3 kilometers uphill, where it is of utmost necessity. Thanks to the unwavering dedication of Solar World Botswana, this essential community requirement is now effectively met. Loading...

We are the proud distributors of some of the world's leading solar brands and products. Our strategic partners include Freedom Won Batteries, Fronius Inverters and Monitoring Systems, Renewsys Solar PV Modules and all Victron Energy Products.

We offer comprehensive solar-plus-storage maintenance packages, combining automated battery monitoring with annual system tune-ups by our certified technicians. This maximizes your battery bank lifespan while delivering reliable backup capacity when you need it most.

SolarBW is the leading solar power energy company in Botswana and South Africa that distributes Victron Energy products, Freedom Won Lithium Iron Batteries and high quality solar panels.
