

Solar panels in field Christmas Island

Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

Can solar power a seed cleaning shed on Christmas Island?

As part of a scientific research focusing on agriculture on exhausted mining areas, a seed cleaning shed on Christmas Island is being powered by solar+storage.

What is Christmas Island known for?

Image: Tesvolt With a picturesque national park occupying most of its territory, home to many animal and plant species including a prodigious population of red crabs, Christmas Island is also known for intensive phosphate mining and severe ecological stress it brings.

Did Christmas Island propose a wave generator?

This is all a bit late, and sad, several years back the residents of Christmas Island proposed a wave generator and had and were denied the opportunity and so now at the 11th hour they propose a poor cousin.

What can Christmas Island do for tourism?

The study includes a detailed assessment of the natural assets of Christmas Island and will assess the potential tourism opportunities suitable for remote island tourism development in the region. The work will produce a range of potential tourism offerings for the island including eco, agricultural and adventure tourism.
