

Solar photovoltaic panels what else do you need

What is a solar PV system?

power being generated by solar panels or be used in a home. Here are some quick definitions to help you. Solar photovoltaic (PV) systems are made up of several panels. Each panel has many cell made from layers of semi-conducting material, usually silicon.

Why should you choose a solar panel system?

Sunlight is free, so once you've paid for the initial installation, your electricity costs will be reduced. Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK.

What is a solar panel used in a home?

used in a home. Here are some quick definitions to help you. Solar photovoltaic(PV) systems are made up of several panels. Each panel has many cell made from layers of semi-conducting material, usually silicon. When light shines on material, it creates a flow of electricity. Solar panels don't need direct sunlight and can work on cloudy days.

What are the different types of solar panels?

The most common type of solar panel system used for domestic homes is PV - photovoltaic - panels. They collect energy from the sun in photovoltaic cells, which is then passed through an inverter to generate electricity. Each photovoltaic cell is made up of a series of layers of conductive material. Silicon is the most common.

Should you buy a solar PV system for your home?

Well-chosen solar panels can provide a reliable source of renewable electricity for decades, helping to slash your electricity bills and cut your carbon footprint. But buying an inappropriate solar PV system for your home could leave you out of pocket.

What type of solar panel is right for my home?

The type of solar panel that's right for your home will, naturally, depend on the amount of available space you have to work with. Higher-efficiency solar panels - such as monocrystalline or those of the more recent HJT, perovskite and bifacial varieties - are also more space-efficient.
