

Solar power roof scam revealed

Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Are free solar panels a scam?

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams. Comply with the law: old and new. Reputable companies know the importance of being honest about what they're offering - and how much it costs.

Does rooftop solar have a fraud problem?

Rooftop solar has a fraud problem. The industry is working to build back trust. A crew installs a solar array on the roof of a home in Frankfort, Ky., in 2023. PHILADELPHIA -- The solar power industry is booming and that growth helps the world meet its climate goals by replacing fossil fuels.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Why are prosecutors investigating rooftop solar?

Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements. Some customers say they were victims of fraud and forgery. This threatens rooftop solar's impressive momentum. Now, some solar companies are working to repair the industry's reputation.

How do I know if a solar contract is a scam?

Pay attention to warranties, cancellation policies, payment schedules, and try to spot any hidden fees. Honest businesses will give you time to go over the terms of the contract, understand the agreement, and let you sign it in writing. To learn more, visit [ftc.gov/solar](https://www.ftc.gov/solar). And if you spot a scam, tell the FTC.
