A solar generator with an output of 5kW (5000W) is a pretty powerful one. Most portable solar generators have an output ranging between 150W and 3000W. 3000W+ solar generators are few, but we are starting to see more of them in the market.. With 5kW of output, you can not only run any household appliance, you can power multiple appliances at the same time.

The biggest option of our three featured solar generators is BLUETTI's Portable Power Station, a portable solar generator featuring 2,000 W output - that's even enough to keep a fridge or window air conditioner running for some time. More than the above two options, the BLUETTI solar generator can actually be used as
