How can Bolivia improve energy production?

Bolivia continues to make efforts to upgrade the infrastructure needed for renewable energy production. The National Interconnected System (SIN), which the government has put in place, aims to improve the nation's capacity for producing electricity by building additional power plants, transmission lines and substations.

Is solarstyle a good company?

I have found SolarStyle a reasonable company to deal with. The original advice, 2 years ago, about our solar panel /battery /car charger installation based on a FoxESS hybrid inverter was sound and the performance is similar to estimates we were given. We did have one or two teething problems but SolarStyle sorted them out satisfactorily.

Solar Style are impressive. We had Solar Style install our solar panels and couldn't be more pleased with the results. The electricians were very efficient and tidy and had their work complete in a very short time (about 1 hour) and explained the solar meter to me. Scaffolders were also very efficient and completed quickly.
