

Spark solar kit Taiwan

Spark Solar is taking a big step forward in the world of solar energy. We are now working on federal contracts in order to provide more solar to more people, but the train does not stop with solar. We also offer a wide range of energy-efficient renovations from electric car charging stations to LED lighting procurement and installation.

Spark was founded with a single-minded mission, to deliver high quality solar solutions with a great customer experience. This is the reason why Spark only uses top-of-the-range components, with warranties, installed with the greatest of care, precision and professionalism.
