What is the average payback on solar power in Sri Lanka?

The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof. Best choice when your bill is high and you have limited roof space. Zero your bill if you generate electricity as much as you consume. The energy you consume - Energy generated through solar = what you pay.

Like most people in Sri Lanka I too was on the look out for a viable solution to the looming power bill. I came across REM Solar on FB amongst many other vendors all of whom I contacted. The response however was totally different from REM, the response to educate on the workings of the system was primary rather than to make a sale.

Innovations in bifacial modules (uses both sides of the panel to generate electricity) are expected to generate efficiency gains and lower LCOE in the coming years. Currently, P-type mono PERC cells are the dominant
