

Sunculture products and prices in Albania

Who is sunculture?

Welcome to SunCulture At SunCulture, we strive to solve the biggest daily challenges of smallholder farmers. We use off-grid solar technology to provide our customers with reliable access to water, irrigation, lighting, and mobile charging, and we can do all of that with a single system.

How does sunculture make solar irrigation more affordable?

SunCulture uses carbon revenues and financial services to make solar-powered irrigation more affordable than dirty fuel pumps. SunCulture is the largest distributor of solar irrigation for smallholder farmers in sub-Saharan Africa.

What is sunculture & how does it work?

SunCulture is scaling a proprietary technology platform that switches rural African farmers from carbon-emitting fuel pumps to solar-powered irrigation, then on-sells other productive goods and services. SunCulture uses carbon revenues and financial services to make solar-powered irrigation more affordable than dirty fuel pumps.
