

Sunkings solar system The Netherlands

What are the different types of solar panels in the Netherlands?

There are three main types of solar panels you can get in the Netherlands: monocrystalline panels, polycrystalline panels, and thin film panels. Monocrystalline panels are made using silicon and have an aluminium frame. These panels are more efficient in producing electricity from sunlight because of the structure of the cells.

Should you install solar panels in the Netherlands?

Another reason to consider installing solar panels in the Netherlands right now is that the Dutch government will actually foot part of the bill. Currently, the Dutch government is offering a sustainable energy investment grant (ISDE) to compensate for the cost of energy-saving and sustainable installations.

Is Sun King a good solar company?

Sun King now accounts for 38% of total industry-wide PAYG solar revenue according to the latest data collected by GOGILA, the global association for the off-grid solar energy industry. As a result of Sun King's growth, the company has eliminated 22 million tons of carbon dioxide emissions while saving consumers \$4.4 billion in energy costs.

Is Sun King a good investment for off-grid solar?

"This investment in Sun King marks an incredible inflection point for the global off-grid solar industry," said T. Patrick Walsh, co-founder, and CEO of Sun King.
