

Synenergy global Uruguay

Why did Uruguay change its energy policy?

This volatility strained Uruguay's economy, forcing then-President Tabaré Vázquez to import energy at premium prices due to increasing household energy demands. This challenge led to a revolutionary shift in Uruguay's energy policy under the guidance of physicist Ramón Mende Galain, who transformed the nation's energy grid.

How can synenergy help ensure business sustainability post-implementation?

Development of in-house capability to ensure business sustainability post-implementation. The workplace is a complex jigsaw puzzle waiting to be revealed, and we at Synenergy help make sense of the apparent disorder. It requires all of our experience, creativity and knowledge as no two challenges are the same.

Does Uruguay produce natural gas?

Uruguay does not produce natural gas and has no proven reserves. In 2016, Uruguay was consuming 53,000 barrels per day of refined petroleum products. In 2017, Uruguay consumed 70.79 million cu m of natural gas. Cite error: Invalid <ref> tag; invalid names, e.g. too many Uruguay imports all of the natural gas that it uses.

How much electricity does Uruguay generate from wind & solar?

Uruguay generates nearly half of its electricity from wind and solar, more than any other country in Latin America and the Caribbean. Source: Visual Capitalist: Solar & Wind Power by Country © 2020 The World Bank, Source: Global Solar Atlas 2.0, Solar resource data: Solargis.
