

The United States purchases solar power from Vietnam

How much solar energy does Vietnam supply to the US?

In the first six months of the year, Vietnam supplied the U.S. with solar panels and modules worth \$3.3 billion, equal to 45% of all U.S. imports, up from less than 30% last year when full-year Vietnamese exports to the U.S. amounted to \$4 billion.

Should US solar panels be imposed retroactively on Vietnam & Thailand?

REUTERS/Jim Vondruska/ File Photo Purchase Licensing Rights Aug 15 (Reuters) - A group of U.S. solar panel makers asked the Commerce Department on Thursday to consider imposing duties retroactively on Vietnam and Thailand due to a surge in imports, as those countries face probes for alleged unfair practices in the multi-billion-dollar trade.

Why are Chinese-owned solar factories laying off workers in Vietnam?

REUTERS/Khanh Vu Purchase Licensing Rights Nov 4 (Reuters) - Some of the biggest Chinese-owned solar factories in Vietnam are cutting production and laying off workers, spurred on by the expansion of U.S. trade tariffs targeting it and three other Southeast Asian countries.

How will US tariffs affect Vietnam's solar industry?

The U.S. Department of Commerce, the White House and China's commerce ministry did not respond to Reuters requests for comment. The most immediate visible impact of the latest U.S. tariffs, which have brought total duties to more than 300% for some producers, has been in Vietnam's solar sector.

What's going on with Solar Exports from Vietnam & Thailand?

As speculation about the trade probes began circulating this year, exports from Vietnam and Thailand surged, the American Alliance for Solar Manufacturing Trade Committee said in a complaint filed with Commerce, which followed its earlier petition in April to start the trade investigations.

Why did US solar imports jump 74% through August?

While U.S. solar import data shows shipments from Vietnam up almost 74% through August, industry analysts have attributed the jump to the frontloading of exports to get ahead of this year's U.S. tariffs. Vietnam's government did not respond to requests for comment.

Since 1 January 2021, there have been no legal instruments in effect guiding the development of rooftop solar power projects in Vietnam ("RTS"). After a period of examining suitable power ...
