

Tianhe 665 photovoltaic panel wooden pallet

What sizes does pvpallet offer?

Watch the Full Product Demo. PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request.

Are wood pallets the best solution for your solar business?

Wood pallets are the standard when it comes to shipping and storing PV modules. But are they the best solution for your solar business? Installers, distributors, and solar module manufacturers are all considering what approach is best for their operations and their bottom line.

What is a solar panel pallet?

It's truly a game-changing solution for handling solar panels that improves efficiency and safety while reducing costs associated with breakage and packaging waste. PVpallet's solar panel pallets are purpose-built to reduce panel breakage, streamline operations, improve safety, and optimize storage.

Can You ship solar modules on a wood pallet?

Traditional Solar Module Packaging: Cardboard on a Wood Pallet When it comes to shipping solar modules, wood pallets can threaten the integrity of your expensive cargo. Here are some common frustrations with wood pallets: Managing partial loads of solar modules is cumbersome, time consuming, and often result in unnecessary breakage.

How reusable is a pvpallet series X?

In fact, each PVpallet Series X prevents 230 pounds of plastic from entering landfills (and our oceans). Because they are usable over and over, reusable pallets also reduce carbon emissions by as much as 60%.

How much of wood pallets are broken in transit?

On average, about 5% of modules shipped on wood pallets are broken in transit. Globally, that's 21,000,000 broken modules -- an industry-wide loss of \$5.25 billion in 2021 alone. Our case studies show a 92 - 100% reduction in breakage when switching from wood pallets to reusable pallets with protective walls.
