

Tigo solar São Tomé and Príncipe

Does Sao Tome & Principe have solar power?

According to data from the International Renewable Energy Agency (IRENA), Sao Tome and Principe did not have any grid-connected solar generation capacity installed at the end of 2021. The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel.

Who is Tigo Energy?

Tigo was founded in Silicon Valley in 2007 to accelerate the adoption of solar energy, and its global team supports customers whose systems reliably produce gigawatt hours of safe solar energy on seven continents. Copyright © 2007--2024 Tigo Energy, Inc. All rights reserved.

What is Tigo Energy Intelligence (EI)?

When combined with the Tigo Energy Intelligence (EI) platform, it delivers module, system, and fleet-level insights to maximize solar performance and minimize operating costs. The Tigo EI Residential Solar Solution, a flexible solar-plus-storage solution for home installations, rounds out the Company's portfolio of solar energy technology.

Is EMAE dragging down the economy of São Tomé & Príncipe?

The troubles afflicting utility EMAE are dragging down the economy of the island nation. The United Nations Development Program is seeking consultants to conduct feasibility studies for a 2 MW solar project and three mini hydropower plants ranging in size from 1.15-2 MW in São Tomé & Príncipe.

How does Tigo work?

Tigo solutions can be applied to existing solar installations or new ones at virtually any scale. Sites require just a few main components to unlock the benefits of optimization, advanced module-level monitoring, and enhanced safety. Easily connect to solar modules to enable multiple features and benefits.

What is Tigo residential?

Each part of the Tigo residential solution - including inverters, batteries, optimizers, software, and more - has been designed to maximize performance for homeowners while enabling a flexible, intuitive installation for installers. Simplify solar site and fleet management with the platform that directly benefits the bottom line.

Supporting solar installers in Latin America, Tigo brings latest rapid shutdown technology for high-power modules to Intersolar Brazil 2024 and expands Green Glove program in the region. To schedule a meeting with a Tigo representative at the show, use the form below.
