Does Ukraine have a solar farm?

The Gnatkiv solar farm, one of Rengy Development's Ukraine project portfolio. Image: Rengy Development. Despite Ukraine's ongoing conflict with Russia, the country's solar sector continues to develop. Lena Dias Martins reports on the opportunities solar developers are finding amid the horrors of war.

Does Ukraine have a solar sector?

Image: Rengy Development. Despite Ukraine's ongoing conflict with Russia, the country's solar sector continues to develop. Lena Dias Martins reports on the opportunities solar developers are finding amid the horrors of war. Installed renewable capacity in Ukraine is growing.

How much solar PV does Ukraine need?

As trade bodies call for Ukraine to reach 50% renewables in its power mix by 2030, it will need to install 17GW of solar PV.

Why is the Solar Energy Association of Ukraine important?

As the last 2 years have shown, Ukrainians still have to fight for their right to clean energy, so the Solar Energy Association of Ukraine has a public duty to be a place of public opinion and unification of responsible business environment for the inevitability of our state's course to clean and safe renewable energy.

Uncover the story behind Soch Solar--our beginnings, our passionate team, and our vision for the future of sustainable energy. At Soch Solar, our foundation is built on innovation, sustainability, and a passion for renewable energy.

The largest specialized association of the solar industry in Ukraine, which unites investors of utility-scale PV plants, EPC contractors and developers, PV service companies, manufacturers of equipment for PV plants, distributors and installers of small PV stations, specialized in energy, legal and consulting companies, insurance and transport ...

Our mission is to deliver reliable, sustainable solar solutions using cutting-edge technologies like Gallium Nitride (GaN) semiconductors. We are committed to excellence in Solar PV installations and passionate about promoting sustainability, including initiatives like recycling old batteries to minimize environmental impact.
