Trident Energy is one of the industry's most experienced teams in the science of operating and redeveloping mid-life oil and gas assets.

How much has Warburg invested in Trident Energy?

Warburg has invested, or committed, over \$10bn in the energy space. Trident Energy is currently unique in their portfolio as the only specialist in international mid-life oil & gas assets. Over \$10bn of Warburg's investments have gone towards the energy sector, with Trident Energy being the only specialist in international mid-life oil & gas assets in their portfolio.

Why should you invest in Trident Energy?

Trident Energy is a strong investment opportunity, backed by \$400 million in equity from leading private equity firms Warburg Pincus and Quantum Energy Partners. This financial backing positions Trident to continue growing and developing its business.

What is the main source of energy in Uruguay?

Fossil fuels are primarily imported into Uruguay for transportation, industrial uses and applications like domestic cooking. Four hydroelectric dams provide much of the country's energy supply. Historically, energy has been a stronghold of state-owned companies, such as UTE and ANCAP.

Why should one invest in Trident & Warburg?

Trident benefits from the support of Warburg, which has more than 50 years' experience in growth investment and has supported over 800 companies with more than \$60bn of equity. In the energy space, Warburg has invested, or committed, over \$10bn across more than 50 investments. This experience and investment in the energy sector makes Trident a compelling investment opportunity.

Why did Uruguay reopen the Nuclear Debate?

The energy crisis in Uruguay in 2007 led to Uruguay reopening the nuclear debate under the presidency of Tabaré Vázquez, when the Executive Branch established a multiparty committee devoted to the study of the use of nuclear energy to generate electricity and the installation of a nuclear power plant.

Trident Energy's management has unrivalled experience in E&P, with a wealth of hands-on experience in every key role and discipline. This directly informs our insights and decision-making. We are equally proud of the wealth of talent and experience we have attracted to support our operations, ranging from geoscientists and subsurface ...
