Pope Francis, a vocal campaigner for action against climate change and on environmental protection, on Wednesday ordered the construction of a solar farm to cover the energy needs of the...

Francis, a longtime advocate of environmental protection, issued an official letter published Wednesday demanding the establishment of an "agrivoltaic" plant in Santa Maria di Galeria, an extraterritorial area of Vatican land north of Rome.

Pope Francis said the Vatican is committed to "contribute to the efforts of all states" to address climate change challenges. The new plant aims to provide 100% of the energy for the Vatican City State.

The Vatican's Transition to Solar Energy. While Vatican City's carbon emissions may seem minimal, the Vatican's symbolic role in supporting climate change initiatives is significant. The solar plant in Santa Maria di Galeria will not only power the Vatican radio station but also provide electricity for the entire Vatican City. This ...
