

Wind Power Lego

What is a Lego® Creator Expert 10268 wind turbine?

Celebrate green energy innovation with the LEGO® Creator Expert 10268 Vestas Wind Turbine. Developed in partnership with Vestas, this detailed, motorized LEGO model captures the elegance and graceful movement of a traditional wind turbine and features a new-for-January 2019 spruce tree, manufactured from sustainably sourced plant-based plastic.

What is the Lego Vestas® wind turbine?

The LEGO Vestas® Wind Turbine celebrates creativity in addition to the LEGO Group's commitment to making a positive impact on the environment. Through investment in wind power the LEGO Group balances 100% of the energy used to make LEGO bricks with energy from renewable sources.

What is in a Lego® Creator Expert Vestas wind turbine set?

This LEGO® Creator Expert Vestas Wind Turbine set also features adjustable wind turbine blades, detailed tower, movable nacelle with aircraft warning lights, Vestas service vehicle, trees, greenery and a house with garden, flowers, picket fence and a patio with 2 chairs, table and a parasol.

Does Lego have a wind farm?

Since 2012, the LEGO Group has supported the development of more than 160 megawatts of renewable energy. The latest investment is a 25% stake in the Burbo Bank Extension wind farm off the coast of Liverpool, UK. The wind farm, which was officially opened today, will generate clean power for more than 230,000 British households.

How tall is a Lego wind turbine?

Built with 146,000 LEGO bricks, the wind turbine stands 7.5 metres tall and is a tribute to the record 200 metre tall wind turbines of the Burbo Bank Extension wind farm - the largest windmills in operation globally. From the summer of 2017 the LEGO wind turbine will be located at the LEGOLAND Windsor Resort, in the UK.

Where is the Lego wind turbine located?

From the summer of 2017 the LEGO wind turbine will be located at the LEGOLAND Windsor Resort, in the UK. To inspire children to engage in environmental issues, the LEGO Group has invited hundreds of children from the Liverpool area and more than a million children on the LEGO Life social media platform to participate in building challenges.
