Who is Auspac solar?

AusPac Solar is a national solar energy provider with its head office in Hamilton, Brisbane. AusPac Solar provides solar panel installation for residential and commercial use, including battery storage and off-grid solar solutions.

What is the Auspac solar guarantee?

The AusPac Solar guarantee is that once you install your system you will receive ongoing support and maintenance from AusPac, and not the manufacturer of the system. You join our community and we work to help you save money with ongoing support and service. Think of us as your bespoke energy optimisation service, not just your Solar installer.

Why should I buy from Auspac?

When you buy from AusPac, you can rest assured you're buying the best products on the market. That's the AusPac Guarantee. This might make us more expensive, but our company policy sets a high standard which our customers benefit from. You can have your system installed now and pay for it over time.
